

ON TO HARBIN, NOW THE PLAN

Japanese War Office Believes That Past Victories Should Be Followed Up.

RUSSIANS ARE IN FULL RETREAT

Heavy Fighting North Of Tie Pass Is Reported---The Russian Army Is Lost Sight Of Entirely.

[SPECIAL BY SCRIPTS-M'RAE.]
Tokio, March 18.—Reports say that the number of prisoners taken from the Russians in the recent fighting at Manchuria was twenty thousand. The most conservative elements in the high councils of Japan now favor pressing on to Harbin in order to reap the full benefits of the victory at Liaoyang and Mukden. Harbin is believed to be the destination of the Russians and the war office is in receipt of constant clamors for rapid advance upon that city.

Tokio, March 18.—The evacuation of Tieling by the Russians was a great surprise to the military experts here. Considering the advantages of its position offered, they believe its surrender shows the demoralization of the Russian army. There is no place beyond Tieling with as many advantages and in the opinions of experts it is doubtful if Harbin can afford an effective stand.

Fierce Battle

St. Petersburg, March 17.—A rumor has reached here of a fierce battle between Linévitch's rear guard and the Japanese flanking armies which is proceeding twenty miles north of Tie pass. There is no official news on the subject.

Another Report

A dispatch from Chang Tatu, forty miles north of Tie pass, dated four p. m., Thursday, states the army is retiring in good order, destroying the railroad as they proceed, but is constantly pressed by the Japanese, the rear guard action being continuous. The dispatch concluded: "We believe the Japanese are making a wide turning movement to the north, to be ready to fall upon us when we get out of the mountains surrounding Tie pass gorge." It is recognized here that if the Japanese succeed in throwing a strong force across the line of retreat Linévitch may be forced to surrender. The mobilization of a new army is already begun in several provinces. A division of the imperial guards at St. Petersburg has received its orders today.

Oyama Is Busy

That Oyama is continuing his flanking movement is certain. The report that the railway was torn up for forty miles north of Tie pass makes the situation look very bad for the Russians.

Oil Producers of Kansas Pass Resolutions Today Regarding Inquiry.

[SPECIAL BY SCRIPTS-M'RAE.]
Independence, Kas., March 18.—Over a thousand oil producers met here today to consider the situation in Kansas and adopt plans to fight the Standard Oil Co. Among the speakers were Ida Tarbell, Frank Monett, Governor Hoch and Congressman Campbell. Resolutions were introduced requesting the president to direct that the investigation of the Standard Oil Co. be opened to the public; and attacking the Standard as "notoriously oppressive, unfair, acting in violation of the laws of the United States and Kansas." Garfield's report of the beef trust was termed preposterous and the president requested to see that the coming investigation get at the root of the matter.

NIP RESCUE IN THE BUD TODAY

County Jail Guards Capture Men Who Would Liberate Prisoners.

[SPECIAL BY SCRIPTS-M'RAE.]
Chicago, Ill., March 18.—While making what the police allege was an attempt to liberate Frank Gagen, a prisoner in the county jail accused of the murder of Detective James O'Keefe, Frank Ludwig and James Glenn were captured by the jail guards early this morning. The men were discovered climbing ropes attached to the eaves of the jail. The guards say two accomplices escaped with a package which it is believed contained dynamite. It is thought they intended to blow up part of the building to effect Gagen's release.

FRANCE READY TO TAKE STEPS

Castro's Government Stirs Ire Of The Sauls Who Seek For A Speedy Relief.

WOULD JOIN WITH THE AMERICANS

Endeavor To Ascertain What The United States Proposes To Do In Order To Be Prepared To Take Action.

[SPECIAL BY SCRIPTS-M'RAE.]
While France intends to exhaust all diplomatic means to secure justice, it is declared that Castro is rapidly exhausting French patience and that the limit of diplomacy is not far off. These developments are regarded as preliminary to the relief of a situation in Caracas which Europe as well as the United States has for some time regarded with dissatisfaction. In view of the unfavorable conditions in Venezuela the French armored cruiser Duplex and the protected cruiser Julien de Graville, now in the Caribbean, will be retained in that vicinity indefinitely.

Washington, March 18.—France is contemplating the necessity of an early energetic move in Venezuela as a result of what she regards as the high-handed and unwarranted action of the Castro government against the French cable company. Official information regarding the French position in the matter was given to the United States by the secretary of the French legation, and this government was asked what action it contemplated in connection with the asphalt cases, with a view that France might act along parallel lines.

ROOSEVELT CHEERED WHEN HE APPEARED IN NEW YORK

Chief Executive Of The Nation Entered Into The Spirit Of St. Patrick's Day.

New York, March 18.—The visit which President Roosevelt paid New York Friday lasted just eleven hours. In that time he attended a luncheon, gave away a bribe at a wedding, made speeches at two dinners, and pleased the populace mightily by going through the motions of a jig to the tune of "St. Patrick's Day in the Morning" on the balcony at Delmonico's. This last was not on the program, but it was the most popular feature of the strenuous day. Thousands who saw it cheered like mad.

A vast crowd filled Fifth avenue when the president arrived at Delmonico's for the "old-sod" banquet. As soon as he entered the building the crowd began to melt away, but all movement was arrested when suddenly the outside of the building became a blaze of white and green electric lights. Then out on the balcony of the second floor on the Fifth avenue side stepped the president.

Keeps Time to Music.

The people rushed back in a second, and Fifth avenue held the crowd packed solidly between the porch lines and stretching up and down for blocks. They got in front of the regiment drawn up prepared to move and swept away the police. As President Roosevelt looked down he was saluted with a cheer that drowned out "Hail to the Chief," which the band struck up.

Then, just as the cheers died away, the band played "St. Patrick's Day in the Morning." It made every one's feet go, and it made the president's high up above the throng he could be seen, hat in the air, bobbing up and down to the magic tune and laughing like a boy. Everybody laughed, including the policemen, and then there came a roar, "Teddy," "Teddy," from the thousands of throngs.

Dances Until Tunes Ends.

On went the tune and up and down bobbed the president until it was finished. Then the band hit up "Auld Lang Syne" and led the regiment in review past the balcony on which the president stood. When it was all over he bowed and went inside.

While, strictly speaking, it was an Irishman's holiday, judged from the crowds in the streets, it was almost everybody's holiday, with the president the chief attraction of the show.

At the banquet of the Friendly Sons of St. Patrick the president referred to the sturdy character of the Irish in peace and in war, paying a neat tribute to Andrew Jackson, the hero of New Orleans, who came of Celtic stock.

GOV. PEABODY REDEEMS HIS PLEDGE TO RESIGN

Colorado Has Three Executives in Twenty-four Hours as Result of Peculiar Political Tangle.

Denver, Col., March 18.—The bargain made by leaders of the opposing Republican factions of Colorado to take the governor's chair from Alva Adams and to seat in it Lieut. Gov. Jesse F. Peabody after permitting James H. Peabody to hold it for one day was carried to a conclusion late Friday afternoon.

In fulfillment of the agreement which he made before the general assembly decided the gubernatorial contest in his favor, Gov. James H. Peabody resigned the office in which he was inaugurated late yesterday afternoon.

Gov. Adams was ousted and Gov. Peabody installed by the general assembly about 5 o'clock Thursday afternoon. Lieut. Gov. McDonald was sworn in before 5 p. m. Friday. Thus in a space of less than twenty-four hours Colorado has had three governors.

Gov. Peabody transacted practically no business of state while in the office of governor. He received many callers who urged him not to resign, but he said that he was tired of the worry and excitement of his contest and wished to go back to his bank in Canon City.

Lieut. Gov. McDonald reluctantly takes the chair which Gov. Peabody resigned after forcing Gov. Adams out. The lieutenant governor has taken no part in the bitter fight over the governorship which has been waged ever since the election on Nov. 8.

ASSEMBLY PASSES SEVERAL BILLS

An Appeal to the Circuit Court Is Granted by the Assembly Measure.

[SPECIAL TO THE GAZETTE.]
Madison, March 18.—The assembly has passed the Ledvina bill providing for an appeal to the circuit judge from actions of town supervisors relating to the laying out, alteration or discontinuing of highways. The Wehrwein bill, directing the board of forestry commissioners to make a survey of the water power on the state lands, and the Braddock bills, compelling railroad corporations to equip freight cars with automatic couplers, grab-irons, continuous power or air-brakes and locomotives with drive-wheel brakes, were also passed. It advanced the Aldridge bill to prohibit the assignment of salaries and wages of married men except by the consent of the wife in writing. The committee on assessment and collection of taxes introduced a bill for a new assessment of property where the original assessment was not made in compliance with the law.

COPCN APPEALS TO RUSSIANS

Urges People to Join for Freedom of Their Native Land.

Paris, March 18.—Father Gopon, the leader of the St. Petersburg workmen in the demonstration of Jan. 22, who, according to the Tribune Russe, is still in hiding in France, has issued another stirring appeal to the Russian peasantry, calling on them to follow the directions of the revolutionary coöperative committee, forgetting all differences of religion and race and rise as one man, armed for a general insurrection against czarism.

GENERAL GOSSIP OF UNIVERSITY

JANESVILLE BOY TO REPRESENT
UNIVERSITY TONIGHT.

HAROLD MYERS IN THE RACE

Base Ball Prospects Are Considered
To Be Very Good Just at
Present.

The University of Chicago track athletic team should easily defeat the Wisconsin aggregation Saturday night in the return meet in the Wisconsin gymnasium. This is notwithstanding the fact that the Maroons will be somewhat at a disadvantage by reason of lack of familiarity with the Wisconsin running track, while the Badgers will be perfectly at home and surrounded with a friendly audience of rooters.

Chicago defeated Wisconsin two weeks ago in the Midway gymnasium by a margin of 19 points and under ordinary circumstances the return meet should be a compensating victory for the Badgers but the loss of Captain Breitkreutz and Laurits Miller, in the half-mile run and the weight events, seriously handicaps the Wisconsin team and makes it decidedly weaker than when Chicago was contested against before.

There is probably nothing to the unkind rumor that has persisted this week, to the effect that Captain Breitkreutz was not so sick in the ear as he was sick of the prospect of being defeated in the middle distance run by the fleet Lighthbody of Chicago. Breitkreutz has not often showed the most admirable spirit, but he is probably not so "yellow" as the rumor would have it. He gave out when he ceased to train several days ago, that his doctor had forbidden him to run on indoor tracks on account of the injury it caused to his ear. Miller has been dropped in response to the suggestion of Chicago that he had played on the Wisconsin team for the full limit of four years allowed by the conference college rules. Waller, who broke the indoor record for the quarter-mile in Milwaukee a week ago, is expected to take all the first points in his events. Kiesel in the mile run and Hean in the double long distance are depended upon to win.

Th entries for the Wisconsin-Chicago meet are as follows:

Two-mile run—Wisconsin: Hean and Smith; Chicago: Lyons and J. Matthews.

High Jump—Wisconsin: Huefner and Quarles; Chicago: Brown and Kirby.

Pole vault—Wisconsin: M. Huefner and Williams; Chicago: Clark and Schobinger.

Shot put—Wisconsin: Sheppard, Findlay, Fleischer and Huefner; Chicago: Russell and Parry.

Relay race—Wisconsin: Stevens, Hasbrouck, Rideout, Woodward; Chicago: Blair, Taylor, Hogenson, Groman and Barker.

35-yard dash—Wisconsin: Waller, Glab, Vreeland and Grobe; Chicago: Hogenson, Barker, Blair and Templeton.

40-yard hurdles—Wisconsin: Quarles and Chapman; Chicago: Catlin, McAvoy, Friend and Abbott.

440-yard dash—Wisconsin: Waller, Hasbrouck, Rideout and Stevens; Chicago: Groman, Blair, Barker and Taylor.

880-yard run—Wisconsin: Myers and Mowry; Chicago: Lighthbody, Taylor, Groman and Templeton.

1 mile run—Wisconsin: Kiesel, Hill, Wadsworth, Cooper and Rice; Chicago: Lighthbody, Matthews and Lyons.

Baseball Talk

Notwithstanding recent current rumors of professionalism, which have ceased to disturb the mind of the Wisconsin student body, baseball is the one sport in which the Badgers retain hope of winning a western intercollegiate championship this year.

THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gasses and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from the continued use of them, but one the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets.

WOULD PENSION AGED LABORERS

Social Democratic Legislators Will
Introduce Bill to Provide for
Old Workmen.

The Social Democrats have introduced a very interesting question in the state legislature in the subject of old age pensions. A joint resolution providing for a constitutional amendment has been presented which provides that some future legislature, if the amendment is added to the constitution, shall be empowered to create a state pension fund for the benefit of superannuated laborers, workmen and public officials. The plan of the socialists is that if the legislature is empowered to create a fund of this kind that it shall be administered after the manner of the German workmen's pension system. Following is a copy of the joint constitutional amendment which has been presented the legislature by the socialists:

"Resolved by the assembly, the senate concurring, That the constitution of the state of Wisconsin be amended by adding thereto a new section to be known as section 11, article VIII, which shall read as follows:

"The legislature is hereby authorized to provide funds by taxation or otherwise for the inauguration of a system of old age pensions for the benefit of superannuated laborers, workmen, teachers and public officials. Provided, that no state aid shall be granted to anyone who shall not have been a bona fide resident of the state of Wisconsin for at least ten years preceding the receipt of such state aid and who shall not have been employed as a laborer, workman, teacher or public official for at least fifteen years."

Another measure on the subject of pensions for workmen which the socialists have presented the legislature is a joint resolution for a memorial to congress for the creation of a federal workmen's pension fund.

WOMEN HAVE THEIR ANNUAL BANQUET

Professional and Business Women of
Evansville Enjoy Repast and
Program of Toasts.

[SPECIAL TO THE GAZETTE.]

Evansville, March 17.—The second annual Professional and Business Women's banquet which was held at the Central house on Thursday evening was a grand success. Nearly seventy ladies were present. At eight o'clock the women formed in the hall in two lines and marched into the dining room. Miss Cora Harris played the prelude. The tables, decorated in ferns and palms, were arranged in the form of a hollow square. Grace being said by Mrs. E. G. Burritt, the ladies proceeded to do justice to the many good things which Landlord Hill had prepared for them. The supper was served in five courses, after which the program commenced. Mrs. E. A. Cope, acting as toastmistress, proved herself worthy of the honor. "The Business Woman" was toasted by Mrs. Helen Richardson, which was followed by "Woman in Literature" by Miss Annette Knudsen. "Incidents of Farm Life" was toasted by Miss Jennie Bryan, then followed Miss Maggie Gillies on "The Library." The ladies thought it best not to let the evening pass without saying something about the braver sex, therefore "Our Brothers" was toasted by Miss Halie Ames. The subject, "What Is the Business Woman's Aim in Life," was talked upon by several and ended in a very interesting debate between Mrs. V. H. Campbell and Dr. M. L. Ewing. About eleven o'clock the banquet returned to their homes, having spent a very pleasant evening, and each one expressed a wish that another banquet may be held again next year.

WATERTOWN WON FROM JANESVILLE

THE FINAL SCORE OF THE GAME
WAS 38 TO 17.

SLIPPERY FLOOR THE CAUSE

Double Game Here Last Evening—
Brodhead Wins from Local
Second Team.

Lanrels in the Janesville-Watertown high school basketball game at Watertown last evening did not go to the team from this city. The contest resulted in a sweeping victory for the Watertown five by a score of 38 to 17. The local five met with the same experience that many another basketball aggregation from here has met with, that is, having to play on a slippery floor and it was due largely to this that the game was lost. It will be remembered that the same teams played here several weeks ago and the victors of last night's contest were overwhelmingly beaten. The line-up of the Janesville team was: forwards—Morse and Carle; center—Caldow; guards—Sennett and Galbraith.

FREE THROW FOR BASKET
GIVES VICTORY TO TEAM
FROM BRODHEAD SCHOOL

In a game that was closely contested from the first to the last blast of the official's whistle the basketball team representing the Brodhead high school took the victory from the second team of the local school by but one point. In the first half Brodhead scored 15 points and Janesville 13 and in the last half the team of this city gained one point, the final score being: Brodhead, 22; Janesville, 22. The last half was exceedingly fast, the score being a tie the larger part of the time. Dedrick and Anderley were easily the stars of the Brodhead aggregation. The line-up was as follows:

Brodhead	Janesville
Dedrick	Dreyer
Anderley	Kilmer
Searies	Crissley
Gilbert	Phelps
Horton	Langdon
Officials—Matthews of Janesville and McCormick of Brodhead.	

GIRLS' TEAMS PLAY CLOSE
GAME UNDER REGULATIONS
NEWLY ADOPTED THIS YEAR

Besides the fact that the game between the two teams comprised of young ladies of the high school was close, the manner in which the game was played made the contest interesting. The field is marked off in three parallel sections and the forwards are not allowed to cross into the territory of the centers, the centers into the portion laid out for the forwards or guards, or the guards into the centers' field. This plan, where the forwards are almost evenly matched as they were last evening, makes the game less rough and though not probably as exciting, more amusing than a game played under the rules for men's teams. The two contesting fives last evening were the first and second team and little difference in the ability of the players of the two sides or the team work of the two could be noticed. The game ended in a victory for the first team by a score of 7 to 6. The line-up was as follows:

First	Second
R. Piffel	Fox
A. Smith	Heyman
Winterroth	Bennison
Dreyer	Litts
Holt	E. MacLean
Officials—Miss Mabel Fletcher and Leonard Matthews.	

PLANNING INDOOR TRACK GATHERING

Seniors and Intermediates of Y. M.
C. A. Will Compete for Ribbons.

Within the next few weeks there will be held in the auditorium of the Y. M. C. A. building an indoor track competition in which the members of the senior and intermediate grade gymnasium classes will contest. The winners of the different events will be awarded ribbons. About eight events will comprise this program and among them will be, 25-yard dash, 440-yard run, low hurdles, twelve-pound shot put, and high jump.

JUNIOR BASKETBALL TEAM
OF BARABOO TO PLAY HERE

The basketball team representing the junior department of the Baraboo association will come here next Wednesday afternoon and play the junior five of the local Y. M. C. A. It is not definitely decided but the game will probably be played in the afternoon. The Baraboo team has an enviable reputation, having played and defeated both the Milwaukee and Waukegan Y. M. C. A. junior aggregations.

JUNIORS TO BE GIVEN AN
EXAMINATION IN GYM WORK

Physical Director J. A. Ward is planning to have the members of the junior department compete in the three different classes for prizes. The awards will be made to those, in their respective classes, adjudged to show the best form in approaching the apparatus, going through the exercises and leaving the apparatus. Work will be done on the horses and the bars, both parallel and horizontal. Members of the senior department will serve as jurors. This examination will take place inside of the next few weeks.

Many Millions for Equipment.

More than \$200,000,000 for new equipment for railways during the current year—\$11,000,000 by ten systems and about \$90,000,000 by other lines—is the almost unprecedented record made by American transportation companies, and it is taken as a forecast of an era of still greater prosperity in the nation. This vast sum represents a conservative estimate of the orders placed, but some authorities insist the total expenditure will reach a much higher figure. These orders, also, are in addition to liberal expenditures made during the close of last year. Following is a table of amounts to be paid for orders placed:

Pennsylvania	\$22,000,000
Baltimore & Ohio	14,000,000
New York Central Lines	20,000,000
Southern Pacific	8,000,000
Santa Fe	8,000,000
Southern Railway	8,000,000
Rock Island System	10,000,000
Norfolk & Western	2,000,000
Erie	10,000,000
Frisco System	2,000,000
By other systems (est.)	90,000,000
Total	\$201,000,000

The Union Pacific railroad yesterday started a "seed special" over its system in Nebraska.

IN COMMEMORATION OF ERIN'S SAINT

Notable Banquet and Entertainment
Given by Hibernians at Assembly
Hall Last Evening.

Every moment of last evening's entertainment given in commemoration of St. Patrick by the Ancient Order of Hibernians was thoroughly enjoyed by the participants. Assembly hall with its bunting and flags and potted plants and its welcoming banner of silk presented an inspiring scene when the 500 guests were seated at the banquet tables promptly at half-past six o'clock. Members of the ladies' auxiliary to the order had charge of the serving of the repast and their work was the subject of much flattering comment. Rev. J. J. McGinnity made a charming toastmaster and Dean E. M. McGinnity delivered an address of welcome which struck the keynote of the happy gathering. Rev. Father Goebel and Rev. Father Dowling of St. Albin in their remarks entered into the spirit of the occasion and kept their hearers interested and pleased. Music discoursed by the Juvenile band, a string orchestra made up of boys and girls of St. Patrick's church, and the selections rendered by the St. Patrick's church quartette contributed much to the enjoyment, and the recitations of Miss E. Josephine Fitzgerald of Albany and Rev. Dowling's solo won hearty applause. Miss Marie Crowley acted as piano accompanist for all the musical numbers. The entertainment was closed at a late hour with the singing of "America" by the entire assemblage.

BONDHOLDERS OF HOTEL
HILTON COMPANY ASSUME
CONTROL OF PROPERTY

Beloit, March 18.—F. M. Strong, the trustee of the bondholders of the Beloit Hotel company, today gives notice that he assumes control of the property of the hotel company, in the interests of the bondholders. The company's affairs are very much complicated and the bondholders are compelled for their own protection to take the action stated, and may lead to unraveling the tangle that exists.

Two Cities Invite: Both Waukegan and Beloit have extended invitations to the state Y. M. C. A. organization for the next annual gathering which will be held a year from this month. The decision of the place of convention will be made by the state board at its next meeting in the fall.

A jury yesterday found Mrs. Gindelsperger guilty of manslaughter in killing her husband near Greenfield, O., July 2, 1896.

HE MEANS SCOTT'S

Your doctor says you must take cod liver oil. Probably he means Scott's Emulsion because you cannot take the clear oil; no one can take the clear oil who needs cod liver oil. The doctor understands that and doubtless means Scott's Emulsion of cod liver oil which everybody can take because it is emulsified and prepared so that it can be very easily digested by the most sensitive stomach. Most everybody likes it.

SUPREMACY BY SUPERIORITY.

The measure of success and prosperity of an educational institution depends largely upon the success of its graduates. This is notably the case with business colleges. The success achieved by the student after graduating may be attributed largely to the practicability and thoroughness of the course taken, and the prestige coming from graduating from a school widely and favorably known.

The success of our students and our reputation for thorough and systematic work is so well and favorably known to the business public as to require no recommendation.

Ask the satisfied employers of our graduates in this city or elsewhere, as well as any of our graduates, what they think of our courses of training.

NEWS FOR THE PLAY-GOERS

"Checkers" will be the attraction at the Myers Grand Monday, March 20. For three months beginning this season it ran to enormous audiences in New York City, a record all the more remarkable because of the engagement being the fourth played there within a year. The production here will be with the same entire

remarkable results with this, the greatest of all their many beautiful and costly productions. The music and lyrics are by Edgar Smith; the music by John Stromberg; and as all the original and lurid stage business of Julian Mitchell, who wields a magic wand when he handles a chor-

us, prince who is disguised as a Turk appears on the scene and August Lump disguised as a Dervish and Bertha as a German hussar, a very pretty march is played. There are a half a dozen different types shown and each little detachment of beauties costumed according to the style of their presentation. After they are assembled there is a sudden flash of lightning and a rumble of thunder and Lump and the Prince, disguised, appear in an aperture in the handle of the big fan and do tricks of conjury and sleight of hand. This is a prelude to the scheme of getting back the diamond necklace belonging to the Em-

cast seen in Chicago, headed by Thomas W. Ross and numbering nearly 150 people. Included in the company this season is a group of dancing pikaninnies, who have made a distinct hit.

Though "Checkers" is now over a year old, it has played in only a very few of the largest cities, because of its popularity making its engagement in every place longer than usual. Within the time mentioned it has played four engagements in New York, two in Chicago, two in St. Louis, and three in Philadelphia.

us, has been retained, it is hardly necessary to say that those who revel in this style of amusement, have in store the treat of the season.

The plot—well, what's the use talking of that? To be sure, there is a little of that necessary commodity, but it won't be too great a strain upon a weary body seeking amusement, to follow it. The scenery and costumes of "Holly-Tolly" are gorgeous; the chorus is wonderfully pretty, and this same chorus dances well, sings well, and it is often and agreeably on the stage. The music

peror. Mimi becomes interested and in a jiffy they have the hubble substituted for a paste one. The object of the visit has been attained and the opera winds up with a glorious burst of melody, song, brilliant evolutions and the gleam of many varied colored calumns.

"The Strollers" will be presented at the Myers Grand Tuesday, March 21.

West Side Theatre. Following the excellent bill that is contending, Leatha Lotta Bestor in

BERTHA AND THE OFFICERS, A SCENE FROM "THE STROLLERS," AT THE GRAND TUESDAY NIGHT

Such a record would seem to be sufficient proof of its popularity to satisfy the most skeptical.

"Checkers" is the dramatization of the book of the same name, but it is said to be of such a character as to make the stage story complete in itself and the readiness of the book unnecessary. To those who have read the book, the announcement will be welcome that only such changes in rendering it into a play have been made as the rigid requirement of the stage demand. The play is divided into four acts. The first, shows the romances of the Arlington hotel at Hot Springs, where Checkers falls in love with Pert Barlow, daughter of the Countess of Clarksville, Ark., whom he meets there for the first time. A second act shows the village square in the country town of Clarksville, and here Pert changes her opinion of Checkers, which was at first unfavorable, and sweetly reveals that his sentiment for her is reciprocated. Her straight-laced father, however, not fancying a sporty youth for her daughter's husband, butts into the game and declares that Pert must receive no further attentions from Checkers, until the latter has shown his ability by bringing \$5,000 for the inspection of the parental eye.

To an exhausted, tired, careworn population, the announcement that "Holly-Tolly" Weber and Fields' luxuriously extravagant production, which was lavished \$25,000, will come direct from a solid year's run at Weber and Fields' New York theatre, to the Myers Grand Saturday, March 25, matinee and night, will come as a refreshing tonic. Weber and Fields never do things in a niggardly manner. Their productions are staged with an utter disregard of money; they are after results, and lovers of musical comedy and bright, clean burlesque, will admit when they see "Holly-Tolly," that these men who stand alone in their class, achieved

from opening chorus to finale is melodious and several of the numbers are catchy and whistleable. In "Holly-Tolly" there are said to be more laughs, more chuckles and still more smiles, than in all the other musical comedies combined.

The Strollers. The locale of The Strollers, Englander & Smith's pretty comedy opera which will be seen here shortly gives lots of opportunity for picturesque scenery and effects, especially in the second and third acts. The second act is the exterior of a pretty German hotel, with the mountains forming the background, one of the styles so familiar to tourists who do mountain climbing. It is a German Spa or water-cure, and the pretty dresses of the tourists mingling with those of the inhabitants of the locality and the pretty blue mountains with their snowy tops in the background, make a charming color scheme. The populace is assembled in its best bib and tucker as they have been expecting the arrival of Prince Adolar de Bunsky and suite and there is a general jollification going on; flower girls are assembled with baskets of flowers to present to their Royal highness; the German singing society is also there as it happens to be the 50th anniversary of the wedding of the old inn-keeper, and a double celebration is in progress. A few German officers are about. Taking altogether, when the curtain rises on this scene it is one of the brightest imaginable.

The second act, or the Fete of Fans, is also a pretty scene on a different scale. Everything is gotten up on the style of fans of various hues and character. In the background is an immense fan which rises to the full height of the stage. On every leaf of this immense fan a vignette is shown, and a living figure is observed reclining gracefully, making a living picture so to speak. As the

new illustrated songs. "In the city of sighs and tears" and "It's the man in the soldier suit." The projectoscope presenting, "The Impossible Voyage." The theatre patrons of Janesville are beginning to realize the fact that they are getting their money's worth and more at the West Side and that it is not necessary to pay one dollar in order to see a clever performance and consequently the new theatre has had big houses all this past week and doubtless will continue to prosper.

Showers and probably severe thunderstorms this afternoon and tonight; colder tonight; Sunday, threatening and much colder.

There may be some big ads of big stores that are poor ads, but there is rarely a small ad of a big store that is a good ad.

OUR SATURDAY NIGHT.

The theory that the planet which we occupy was created 6,000 years ago is a popular theory and many good people are shocked when the claim is made that the world was old thousands of years before that date. The geologist who gathered six tons of shells from the banks of Shell Creek in Florida, including more than 900 varieties, said that the formation represented at least 100,000 years and then qualified the statement by saying it might have been 200,000 years, for time don't mean very much in geological research.

On the banks of Peace River, back 10 miles from the harbor entrance, is located the little town of Liverpool. Extending along the shore is a building some 200 feet long by 60 feet wide which looks very much like a grain elevator. It is an elevator in fact, for barges lie along the side every day and the product of 250 tons is loaded and towed away to deep water harbors.

Adjoining this building is another large building filled with machinery and running into a hopper from cars near the roof is a constant stream of a black substance, about the size of pea coal, dripping with water. This passes through large revolving tubes, comes in contact with a sheet of flame which flashes up from a huge furnace, is received by an endless chain belt elevator and carried into the other building, ready for shipment, thoroughly dried and about as heavy as coal.

This is bone phosphate as it comes from the beds which are located about a dozen miles up the river and where 100 men are employed with dredge and machinery for washing.

This bone phosphate is found in layers from 6 to 8 inches thick, covered with sand from 6 to 8 feet deep. It represents every description of bone except human bones, but is largely composed of fish bone. The most of it is in the state described, but it is no uncommon thing to find deer antlers and well preserved specimens of other animals. The most common well preserved specimens are sharks' teeth, as perfect as the day they were deposited in the bed which has held them so long.

The Peace River phosphate company, which owns the plant at Liverpool, shipped 100,000 tons last year and will ship 150,000 tons this year. The company claims that the beds which they are now working will yield 1,000,000 tons.

That means that back in the ages, so far back that the mind may not grasp it, when this southern country at least was an open sea, that eddies, formed and the wash of the ocean deposited its immense product of bones in pockets where they have rested until reduced to small particles. One million tons of bones means a good many fish, and yet this is the product of a single pocket. There are phosphate beds in Kentucky where bones of mastodon are found in large quantity.

These deposits of the wreckage of animal life make the span of human existence seem unusually brief and a century of time but a blot on the map. There is an old church in the city of Juarez, Mexico, said to have been built 400 years ago. Its walls of adobe, 9 feet thick are whitened and bleached by time, and the visitor uncovers his head to pay homage to a structure which has no parallel in America.

Something of the same spirit possesses him as he looks through the piles of inanimate phosphate for relics of the dead past which may have preserved a semblance of preservation from decay.

The vertebra of an alligator or the tooth of some sea monster, speak of tragedies in the animal kingdom, and the great pile of bones is a reminder of annihilation and death which is constantly going on in every realm of life.

Some one has said: "If the Atlantic could be lifted and placed over in another bed that its old resting place would be a phosphate mine 3,000 miles square. This is doubtless true for the population of the sea may never be complete. It swarms with

life and covers its dead so carefully that the sepulchre is seldom discovered.

In the Florida waters alone, it is estimated that there are 600 varieties of fish. Thousands of tons are shipped every day. At some of the islands around Key West they are so plenty that the sport of catching them with hook and line soon becomes monotonous, and is abandoned.

The market fishermen use seines from one to five miles long and the draught is beyond comprehension. Only certain varieties are saved and hundreds of tons are allowed to escape.

These are the fish which frequent inland waters and are simply the fringe of the great mass of life outside. The ocean bed is a vast unexplored charnel house which will never be disturbed.

The age of the human family may be 6,000 years and Adam and Eve were doubtless the first representatives of the race, but animal life was old when Adam was a boy.

It is a popular notion that Columbus discovered America, but it is a well known fact that the continent was inhabited long before Columbus was born. There are shell mounds all over southern Florida created centuries ago by human hands. One of these mounds is near an orange grove owned by a man formerly from Wisconsin. It occupies half an acre of ground on a point of land where a bayonet sets back from the river. The natural shore line is low, but this mound forms a knoll perhaps 10 feet high and sloping back from the shore. Dig down into it four feet and you find nothing but well preserved clam shells, showing that for many years it was an Indian camp ground, and where the shells accumulated. This is the generally accepted theory and is doubtless correct. The Seminole lived in the marshes of Florida long before Columbus landed and if they had never been disturbed the country would be none the poorer.

Senator Spooner has voiced the sentiments of the majority of the people of the United States when he says no nation east or west can take away anything that rightfully belongs to us.

The Northern Securities company is again before the courts. The lawyers find some flaw in almost every decision the supreme court can make.

So Castro would invade the United States. Well he has nerve. Even the Wisconsin legislature has not more consummate nerve than this little South American popinjay.

There is one thing certain. Wisconsin is getting lots of free advertising owing to the political troubles. They say advertising pays, too.

The annual period of spring cleaning has come. Some homes are already desolate and the family camping out.

A base ball team in Janesville would do a lot to advertise the city. Why not have one?

The cigarette bill has passed the state senate. Now for its rigid enforcement. Personal rights are nothing, law is everything.

The merry pre-primary fight goes on. Good nature seems to rule and personalities are forgotten.

was identified with his family and the circle of his friends. He had no life apart from them. In our time the boy who stays at home is a dull boy. The ambitious go west, or to China or South-Africa; wherever he is he must go somewhere else. Ancient times are broken and the individual lives for himself alone. He does not know where his grandfather lies buried. Often he does not know his full name. The habits of selfishness acquired while he is making his fortune cling to him after he marries. Is it wonderful that trouble often comes?

Green Bay Gazette: The assembly has reconsidered its appropriation of \$25,000 for an exhibit at the Clark and Lewis exhibition at Portland, Oregon. This fair is to be held on the Pacific slope from which no business is derived for Wisconsin and neither do investors or settlers come from that region. To Wisconsin little will be gained by making an exhibit and it is therefore doubtful whether it is wise to put that amount of money into it. These fairs are being held more frequently each decade and it is even questionable whether any great amount of good is derived by the state in making exhibits at any of them. Certain it is that if any of them are to be cut off by Wisconsin this is about the best of the lot to drop.

DIES READING MORNING PAPER

GILBERT GILBERTSON PASSED AWAY AT RAILROAD HOTEL.

SEVENTY-SIX YEARS OF AGE

Was Norwegian by Birth, and Came to Janesville Thirty-Two Years Ago.

Gilbert Gilbertson, an aged Norwegian resident of Janesville, died suddenly this morning while seated in a chair at the Railroad hotel, where he made his home. The death occurred twenty minutes after eleven and was without warning of any sort. Mr. Gilbertson had been seated in a chair in the office for a short time reading a morning paper when he was heard to groan and before anyone could reach him his head dropped back and he never regained consciousness, being dead when medical aid reached him.

Mr. Gilbertson has not been well for some time past and it has been his custom to drink a little Jamaica ginger each morning. This morning he told John Gooden, who has charge of the bar, he would not take any and after securing a paper went into the office to read and smoke. He had been occupied at this but a short time when Charles Burbank, the clerk, heard him groan and before he could reach him saw his head drop back. Assisted by Gooden, the two men propped Gilbertson's head up and tried to revive him by rubbing his body near his heart. A faint flutter of the pulse was felt but by the time the police and Dr. Loomis arrived he was dead. His remains were conveyed to the Kimball morgue, where they are awaiting orders from a brother of the deceased who lives in Chicago and has been notified of his death.

An Old Resident
Gilbertson was seventy-six years old and a native of Norway. He moved to America about thirty-two years ago, coming directly to Janesville. For many years he was employed in the Hanson Furniture factory and twelve years ago old age compelled him to cease work. Since that time he has worked at the Railroad hotel for Proprietor Holt for his board. He was never married and two brothers in this country, one in Baltimore and the other in Chicago, are the only relations known.

Catherine Irene Connell
Catherine Irene Connell, aged two years, daughter of Mrs. John Connell, died of brain fever at the home of her parent, 303 South Franklin street, this morning at two o'clock. Deceased was the child of the late John Connell, who passed away March 1. There are left to mourn her death besides the mother, two sisters—Mary and Charlotte. The funeral will be held from St. Patrick's church at two o'clock tomorrow afternoon. Burial will be in Mt. Olivet.

Mrs. Stewart Lake
Mrs. Stewart Lake, one of the pioneer settlers of Rock county, is dead at the home of her daughter in Olympia, Washington. Deceased came to Rock county in 1844. She was 82 years old at the time of her death. The remains were to arrive in Clinton today for burial.

Mrs. Jane Randolph
The remains of the late Mrs. Jane Randolph were tenderly laid at rest in Oak Hill cemetery this afternoon. Funeral services were held from the home of her daughter, Mrs. Emma Stenson, on Liberty street at 2:30 o'clock, Rev. J. H. Thippert officiating.

MADE ANOTHER CALL BEFORE PUTTY DRIED

Burglar Again Entered Lowell Grocery on River Street by Rear Window Last Night.

Before the putty on the glass which replaced the light in the rear window, broken during the last incursion, had an opportunity to harden, burglars or a burglar again entered the Lowell store by the rear window last evening, pried open the cash drawer, appropriated 98 cents in change and about twenty cents worth of stamps, and departed through the back doorway, pausing in the rear of the building to replace the pane and secure it in position with some shingle-nails. Officer Robert Bour passing through the alley on his beat at half-past twelve o'clock at once noticed the small litter of putty that had been cut away and after examining the window called up Charles D. Stevens by telephone. When the examination of the store was first made it was believed that some cigars and other merchandise had been taken, but later investigations proved this not to be the case. This morning heavy wire screening was placed over the window and some iron bars will be placed there. It is only a few yards from the electric light plant where men are at work all night and the marauder, if there be but "one of him," in making these frequent visitations, shows himself gifted with no small audacity. It was discovered yesterday that a glass gun-machine had been cleverly opened and rifled of its small coin on the occasion of the previous visit.

QUESTION ASKED OF THE PUBLIC

Communication Relative to the General Welfare is Asked Today.

The following communication has been received at the Gazette office relative to a chicken fight which was held inside the city limits recently:

"To the Editor—Can you inform me if there is any chief of police or police officers in the city of Janesville? By the way, those chicken fanciers are putting off cooking malis in the city limits in the vicinity of the city ward; to load a street to its full capacity without molesting is an oversight on the part of city dads. There was no less than 60 or 70 to the cock fight on the 16th. I think this matter will bear inspection.

BRIEF BITS OF LOCAL NEWS

Sunday Services: Special provision has been made for strong speaking and good music at the Y. M. C. A. building every Sunday. Prof. H. C. Buell will speak tomorrow at 3 p. m. The male quartette will sing. Every man in the city can have a part in this special men's meeting. An hour spend at the Y. M. C. A. from 3 to 4 Sunday will prove of strength and profit to every man. Your presence will help others. Do not fail to be counted among the men of Janesville who prove their interest in the moral uplift of young men by their presence.

The Wide World Knows: George Simpson returned last evening from a trip to New York city. Happening to buy a copy of the Globe and Commercial Advertiser and glancing over its columns on Thursday he came upon the article published by the Milton Telephone regarding the Noble proprietary medicine bill and what ought to be done to the senate with a fence-board. The article was headed "The Mad Editor of Milton."

Marriage Licenses: Marriage licenses have been issued recently to Albert Anderson of Avon and Helga Stromstrom of Newark, and to David Arnold and Jennie Allen, both of Milton.

Diner Wrecked: The dining car which is each evening left off from the Chicago-St. Paul vestibule train on the North-Western road was run into, while standing on a side track and one end extending onto the main track, by an incoming way-freight and the end stove in. The car was taken to Chicago for repairs on the train it regularly is attached to in the morning.

FORMER RESIDENT IN OLD MEXICO

Interesting Pen Picture of a Trip Through the Ancient Home of the Aztecs.

Irapuato, Sunday.—Don't you believe any of the people who say Mexico is a tough proposition. This has been a hard trip and everybody is dead tired, but they are all coming down again just as soon as they can. I have picked out two or three places where we will spend a month next winter; and all the way down the line we want to stop over for a few days at least. Zacatecas, Guanajuato and Guadalupe are the towns you will want to see most, but Parral and Torreon are interesting if you have not seen the big towns first. Guadalupe is the cleanest, best built town we have seen and gives the best idea of what the Mexican has accomplished working along his own lines. The town had a good big French element, though, and the big stores are modeled on the Paris boulevard style of arrangement. The churches and buildings in Guadalupe are fine and there is a canyon 2,400 feet deep with the Rio Grande looking like a little creek down at the bottom of it, when it is said to be nearly two blocks across. The river falls 3,000 feet in about forty miles and develops more water power than Niagara Falls.

Guanajuato was the most interesting town we struck. It is only 39,000 or 35,000 now but in 1850 it had 75,000 people and was immensely rich. It is all built in a deep mountain canyon, and doorways, patios and little parks have been built everywhere in niches of rock, the earth being carried in a sackful at a time, on the heads of ponies. The town is a mass of bloom the year around. Dams have been built across the canyon in three places and the storage reservoirs are like lakes. They hold enough water to supply the town for seven years. The only things there are to irritate are the parks and patios, for there isn't an acre of farm land within twelve miles of the city. The biggest silver mines in Mexico are around Guanajuato and when they get in new methods of mining the town will boom again. It is starting already.

The opera-house at Guanajuato is the finest on the American continent, and the one in Guadalupe is the third largest. Only the Auditorium and the Metropolitan opera-house in New York are larger.

In Guanajuato after they had shown us the town they dismounted a troop of cavalry and gave us the horses to ride across the mountain six miles to the biggest silver mine in the world. It has two shafts 1,200 feet deep and tunnels run from the bottom of these shafts clean back under the city, at least four miles. Right near the mine is the highest of the storage reservoirs. The dam that holds it is ninety feet high of cut-stone. We rode back from the mine through town and then up to the catacombs, where they keep the dead people of Guanajuato in closets until they mummify. Some of the crowd brought back bones as souvenirs and the nervous folk were fussing all night for fear the ghosts would talk.

Maybe you think the El Paso cavalry didn't make a fine appearance. I'll get a picture of it when the kodak films are developed. We rode at least fifteen miles that afternoon and my horse went up and down enough to make three miles more.

Zacatecas is a beautiful town in a different way from any of the others. It lies in a cup with high mountains all around it. The old Guadalupe cathedral is two miles away and you reach it on the Semi-Providential R. R. line. I asked what that name meant and the Zacatecas man said that God Almighty ran the car down hill and eight miles pulled it back.

Irapuato has nothing but strawberries and some New England man was down here last week and taught them to fill the bottom of the baskets with culls and bad berries. You get one layer of good ones.

We are behind time a little and will have very little time in Celavero or Queretaro. We reach Mexico City Monday morning and will be presented to President Diaz Monday afternoon.

SOCIETY.

It is an astonishing fact, but nevertheless it is true, that hundreds of women gamble in Janesville. At every club gathering and even at some church functions where cards are played for prizes the laws of the state are being violated. The members of the feminine sex are perhaps entirely unaware of this fact but the law explicitly states that playing a chance game comes under the head of gambling. Under the law any person could swear out warrants for the arrest of those who indulge in card playing for prizes and have them prosecuted under the statutes. Janesville has a large number of women's clubs which award prizes to the winners. It is improbable, however, that any members of the feminine sex will be hindered in their pastimes.

George K. Colling's seventy-sixth birthday anniversary was the occasion of a banquet and musical entertainment, tendered him by the choir of the First Congregational church and a few musicians at the church parlors last evening. Mr. Colling has been a resident of Janesville since 1856 and has followed the calling of contractor and builder since 1865. His first home was in Exeter, Devonshire, England, and members of his family have attained distinction in the field of architecture—James, a cousin, having won recognition in other cities of England. Last evening's festivities were thoroughly enjoyed and appreciated by the guest of honor and his associates and friends of the choir.

Last evening at Central hall the members of Prof. Kehl's dancing school participated in a very pretty cotillion which lasted until nine. Favors of tissue paper, toys, and button-hole souvenirs of green were used in the figures and the many dancers who arrived later were all presented with the little St. Patrick's day remembrances. Sylvester Kehl danced and sang "The Gondoliers" for the little folks and later in the evening John Kehl did some very fine floor dancing for the older visitors. Prof. Lake's orchestra furnished the music. With last evening the first term closed. A half term which is to continue into May will begin two weeks hence.

"My there's a whole lot of young boys coming up in this town," said a young lady at the dancing school last evening and she added plaintively, "if they'll only stay." Of course she meant in Janesville as well as on earth. Well there are some pretty nice little girls coming up, also, who will probably have something to do with the boys' sticking by the home town.

The piano recital by Miss Caroline Louise Willard of Chicago, which was to have been given March 27th, has been postponed until April 3d. This is the third of the series given under auspices of the Schumann club at Library hall.

Miss Amorette Whitton left today for Chicago to witness the presentation of "Ben Hur" at the Auditorium this evening.

ARGUMENT ON THE QUALITY OF EGGS

Peculiar Case Tried in Justice Court Yesterday—Fight Over Durham Bull Today.

In Justice Earle's court yesterday C. E. Udell and S. W. Menzies of Beloit argued the action brought by John A. Tuck to collect \$18.40 allowed to be due him from Hilton & Son, managers of the Hotel Hilton, for eggs which the plaintiff insists were fresh but which the defendants claim were not. The attorney for the plaintiff tried to show that whether fresh or no, the eggs were all served to guests. A decision will be handed down on Monday.

This afternoon the action brought by Henry Raymond of Stuart's Hollow south of Hanover to compel the surrender of a red Durham bull valued at \$50 which plaintiff alleges is unlawfully retained by John B. Ostrander, was argued. A. M. Fisher and E. H. Ryan appeared for the contending parties.

...Forty Years Ago...

Janesville Daily Gazette, Saturday, March 18, 1865.—Got the Documents.—Our friend "Jeeves" who has presided so satisfactorily over the post office for the past four years, has been reappointed postmaster, and his appointment has been confirmed by the senate, the papers being received by him today. We congratulate Mr. Burgess on his good fortune.

McGregor & Western Railway.—We published a notice the other day that the above named road had been leased by the Milwaukee & Prairie du Chien railway company and now it is for us to mention the fact that Mr. William B. Strong, Esq., of this city, has been appointed superintendent of that road, and is soon to leave us to enter upon the duties of that position.

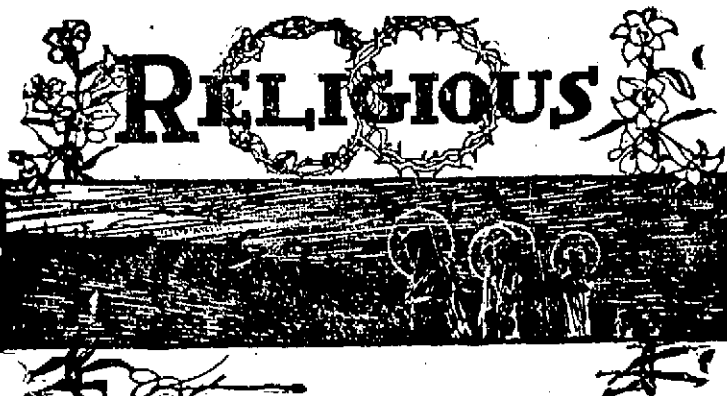

While we regret the necessity which calls Mr. Strong from our midst we are pleased to announce his promotion. Mr. Strong was appointed agent at Milton, March 22d, 1865, afterwards at Whitewater, then a Monroe, and finally, in June, 1888, he came to our city to represent the interests of the Milwaukee & Prairie du Chien railway company, where he has filled the position of local and general agent of the Milwaukee & Prairie du Chien railway for the past seven years with credit to himself and to the satisfaction of our business men and citizens generally and to the satisfaction of the people along

the road. His appointment as superintendent is to take effect March 22d, 1895, and it will be noticed that it is just ten years to the day from the time of his first employment by the above company at Milton.

This success has been won by untiring energy in the discharge of the duties incidental to his position, and after years of faithful attention to the interests of the company, he is rewarded with this evidence of appreciation. The culmination of his efforts to please must be a source of pleasure to himself and his host of friends.

We shall part with Mr. Strong with sincere regret, as we knew him to be a true gentleman, honest and straightforward in all his business transactions. We most cordially recommend him to all of our McGregor or friends (he will make that place his home for the present) feeling the truth of the statement that "our loss is their gain." We hope that he will be successful in his new position and that his most sanguine expectations may be realized.

W. S. Alexander, formerly Chief Clerk in the Milwaukee & Prairie du Chien railway office in this place, has been appointed as Mr. Strong's successor here. Mr. A. is well and favorably known in this community, and we welcome him back to Janesville, feeling confident that he will fill the place to which he has been appointed, alike satisfactorily to his employers and the people.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 10 days he had hair all over his head. On July 3 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

SPECIAL ELECTION

To Vote on Question of Issuing Bonds for Bridge.

Published by authority of the common council of the city of Janesville.

Office of the city clerk, Janesville, Wisconsin, March 11, 1905.

To the electors of the city of Janesville:

Notice is hereby given that, pursuant to a resolution of the common council of the city of Janesville, adopted the 30th day of February, 1905, a special election will be held in the several election districts in the city of Janesville, on the 4th day of April, 1905, at the same time the annual election for ward and city officers is held, for the purpose of submitting to the vote of the electors thereof, the question of raising not to exceed \$25,000, by issuing the corporate bonds of the city of Janesville, to pay for the erection and construction of a bridge across Rock river, at Racine street, and that such vote will be taken and polled at the following polling places in said city, viz:

Election District No. 1, first ward: the street commissioner's office, in the northeast corner of the basement of the city hall.

Election District No. 2, second ward: the building owned by Thoroughgood & Co., at the northwest corner of Fourth avenue and North Main street.

Election District No. 3, third ward: the voting booth owned by the city on Racine street, east of and near South Main street.

Election District No. 4, fourth ward: the shop at No. 53 South Academy street.

Election District No. 5, fifth ward: the voting booth owned by the city on Holmes street, east of and near Center avenue.

The polls in each election district will be open from six o'clock in the morning until seven o'clock in the evening, and the election will be conducted by the inspectors and clerks of the several election districts who are required to conduct the annual election for ward and city officers, and the result thereof determined by them and returned to the undersigned.

The vote on said question will be taken on the voting machines used for said annual election and the official ballots arranged on said machines in the place provided for such purpose will have printed thereon the words, "Shall bonds for \$25,000 for construction of a bridge across Rock river, at Racine street, be issued?"

To vote in favor of the question submitted, turn the question pointer on the machine to the word "Yes," and leave it there.

To vote against the question submitted, turn the question pointer on the machine to the word "No," and leave it there.

MYERS GRAND OPERA HOUSE

TUESDAY, MARCH 21st

NIXON & ZIMMERMAN PRESENT

"THE STROLLERS"

What you call the cut of a garment is really the design. The cutting is mechanical, but the designing is high art.

The designer is the architect and it is he who is responsible for the style, the "hang"—the shape of the collar—the finish inside and out.

The Clothcraft designer has made style his life's study and receives a very large salary—so why shouldn't Clothcraft Clothes excel in style?

The cutting must be quick and accurate—that's all. On some goods the Clothcrafters use an electric machine with rapidly revolving steel discs—cutting many thicknesses of cloth at once. That is one of the ways in which Clothcraft Clothes are made possible at the price.

There are no other clothes as good as Clothcraft Clothes—at the price, and few at any price can equal them in fit and stylish finish, or in wear.

A potent reason for this is the fact that all Clothcraft Clothes are made in the Clothcraft factory under direct supervision. That is the direct road to economy and good work. Also it makes possible the use of special machines and special devices which save labor, reduce cost, and improve quality. You'd better examine Clothcraft Clothes.

FREAR BILL NOT LIKED BY GUARDS

Do Not Wish to Have University Graduates Eligible to Brevet Lieutenantships.

While university students are watching for the passage of the Frear bill which would make graduates eligible to brevet second lieutenantships the members of the Wisconsin National Guard are watching for its death. The members of the militia say that this is simply to create soft snags for more of the university nurslings, many of whom are to be seen at Camp Douglas each annual encampment—and they are growing in numbers.

"Where is the fairness of this bill when one considers that there are scores of Beloit and Lawrence students in the Guard companies in the Line City and Appleton who enlist and serve their time in the line with the regular recruits?" ask the guardsmen. "They make the best soldiers the state has ever had and this was stated positively by Gen. King, when he was in this city a few weeks ago. If the university students alone are to

be given preference for commissions, it will have a very serious effect upon the companies of the state. If the law was made to read that any graduate of a high class college who had served three or more years in the guard it would be fair to all concerned. Members of the guard will prepare a protest to the Frear bill and send it to Madison without delay.

PLUNGES OVER 125-FOOT CLIFF

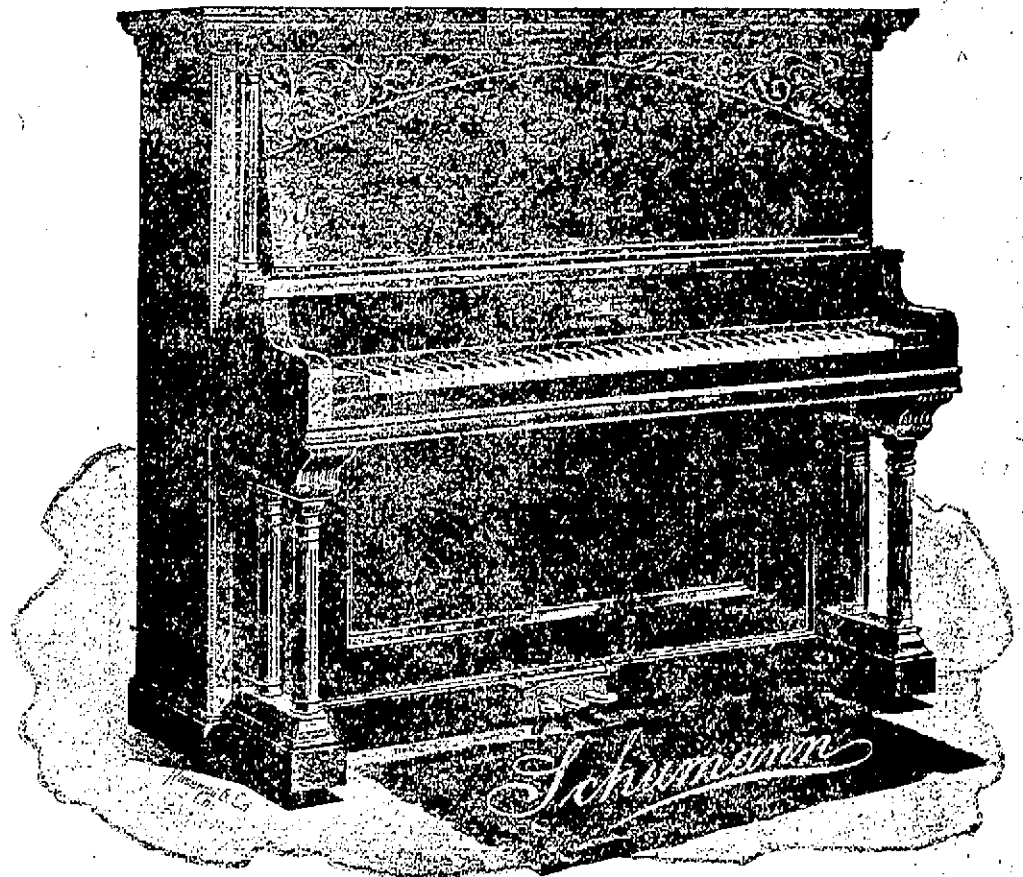

Man Thought to Have Quarreled With Woman Before He Fell.

Paterson, N. J., March 18.—After a quarrel on the top of a cliff 125 feet high on the outskirts of this city, in which the voices of a man and a woman were heard in angry tones, the dead body of John Bennett, an insurance agent, was found at the foot of the cliff. His skull was fractured, his arm broken and there was a deep cut over one eye. Whether he was thrown over the cliff or fell by accident is unknown, but the county and city authorities are searching for an unknown woman whose voice was heard in argument with a man only a little while before the body was found. Bennett was last seen by his wife the day before, when she reproved him for drinking.
